Blue Wave Pride Club, Inc.

The Blue Wave Pride Club was formed in 2006 to:

- Support the athletic programs at Darien High School for the physical development and betterment of its students.
- To foster sportsmanship and school spirit among parents, teachers, and staff.
- To develop an interest in and awareness of the athletics at DHS within the town community.

In short, we are all about

GOT PRIDE ???

BLUE WAVE PRIDE CLUB

From our President, Rob Tricarico:

It gives us great pleasure to report that during 2009-2010, the Blue Wave Pride Club made a significant impact on the DHS community. Every sport that made a request received support, all due to your generosity. As we anticipate further success for the DHS teams in the 2010-2011 school year, fall sports coaches have already submitted their requests to the BWPC for our support. Their requests range from items that could help give our student athletes a competitive edge over their opponents to those items that would promote Blue Wave Pride among all students. So again, we look to you—our valued membership—for your generous support of our mission: To support the athletic programs of Darien High School and foster sportsmanship among students at DHS.

The BWPC Board of Directors thanks you for your generosity as we look forward to another extraordinary year for DHS athletics.

Go Blue Wave!

Testimonials

As the athletic director at DHS, I cannot express fully my appreciation for the support the student athletes have received from the BWPC. From weight room upgrades, the "Do the D" for both the gym and stadium and the equipment and supplies that have been purchased for virtually every team at the school, without the BWPC these things would never have been possible" - John Keleher

"After we won FCIACs and States for the first time in 2009, we wanted to hang a banner in our home rink. We approached the Blue Wave Pride Club and they generously agreed to provide the funds. Now my teammates and I will always have a tangible reminder of that amazing season and we're excited about the prospect of future teams adding championships to our new banner!" - Madeline Coburn, Captain, DHS Girls Ice Hockey

"With the Darien Blue Wave football team being only 2 of 19 FCIAC schools without any access to lights, the temporary lights were absolutely awesome. The lights not only enabled us to hold a regular length practice, but also helps to prevent injuries as without them we used to practice in the dusk and car headlights." - Rob Trifone, Head Football Coach
