

Curriculum at a Glance
Spanish 2B/3A

Spanish 2B/3A is a course designed to increase the students' level of proficiency in the four language skill areas of reading, speaking, listening and writing as set forth by the ACTFL (American Council for the Teaching of Foreign Language) guidelines. In order to achieve this goal students will be encouraged to think critically, creatively and adaptively while working independently and collaboratively on authentic tasks to further expand their knowledge of the target language so that they will be able to communicate effectively in a more highly developed and diverse manner. Students will also work on developing an awareness of several Spanish-speaking cultures by comparing and contrasting them to your own in order to recognize the benefit of communicating in the target language as a way of contributing positively and responsibly to various communities.
