Eligibility requirements to participate in athletics:

- 1. Parents must complete the following forms in their parent Aspen account:
 - a. Athletic Registration form
 - b. The Parent Information and Permission signoff form
- Students must complete the following workflow in their student Aspen account:
 a. Athletic-student (HS Only)
- 3. All students must pass a physical examination prior to participation in High School Athletics. A physical exam covers the student for 13 months from the exam date. A student's eligibility will terminate once a physical has reached the 13 month limit.
- 4. Students and parents must attend the required coursework offered by the Darien School District before the period of participation begins.
- 5. All Athletic fines must be paid or missing items be returned to Administrative Assistant Cindy Fraioli/Assistant Athletic Director, Curtis Field. (Checks made payable to "Darien High School". In the Memo section please include the "Team Sport" the check applies to.
 - 1. Log into Aspen.
 - 2. Complete each of the following forms by clicking on the blue link: The Parent Information and Permission Signoff form and the Athletic Registration for your high school student

Sudden Cardiac Arrest Awareness Student Consent Form Part I. SUDDEN CARDIAC ARREST- What is sudden cardiac arrest? Sudden cardiac arrest (SCA) is when the heart stops beating, suddenly and unexpectedly. When this happens, blood stops flowing to the brain and other vital organs. SCA doesn't just happen to adults; it takes the lives of students, too. However, the causes of sudden cardiac arrest in students and adults can be different. A student's SCA will likely result from an inherited condition, while an adult's SCA may be caused by either inherited or lifestyle issues. SCA is NOT a heart attack. A heart attack may cause SCA, but they are not the same. A heart attack is caused by a blockage that stops the flow of blood to the heart. SCA is a malfunction in the heart's electrical system, causing the heart to suddenly stop beating.							
Part II. HOW COM	MMON IS SUDDE	N CARDIAC ARRES	T IN THE UNITED STATES	?
