Darien, Connecticut

POLICY

Series 5100  
Attendance

Policy 5110

SCHOOL ATTENDANCE DISTRICTS

The Board of Education shall determine the geographic areas served by each school within the Darien school district.

The following educational criteria will be used when determining school attendance districts:

Students should be assigned to ensure equal access to educational opportunity at all elementary schools.

Students should be assigned based on class size limits in individual schools, in accordance with Board policy and school procedures.

Core facilities should be adequate for the total enrollment of the school.

Consideration should also be given to these logistical factors:

Children at the same grade levels from the same neighborhoods should, to the degree possible, attend the same school.

Consideration should be given to school proximity and geographic boundaries to the degree that these provisions do not violate the educational provisions above.
